Privacy notice for recommendation follow-up

Processing of personal data

The Safety Investigation Authority carries out annual monitoring of the processing and implementation of safety recommendations. The Authority maintains a database for compiling, analysing and reporting responses. This also includes managing the contact details of the target organisations. The aim is to ensure that the purpose of the safety investigation is fulfilled.

Legal basis for processing

The processing of personal data is based on the management of the statutory obligation of the Safety Investigation Authority: section 30 of the Safety Investigation Act, monitoring of safety recommendations.

Data subject groups

- Appointed contact persons for organisations subject to the recommendations (e.g. persons employed in security, sectoral or management positions)
- Possible other persons appointed by the organisation to respond to the survey

Personal data groups

In connection with the monitoring of recommendations, we collect the following personal data:

- the respondent's email address
- the respondent's organisation and title or role.

Recipient groups of personal data

The Safety Investigation Authority publishes the data obtained from the monitoring of recommendations online. The Authority does not publish the contact details of the persons who gave the responses, but this information is also public, as laid down in the Act on the Openness of Government Activities. This means that this information may be disclosed upon request.

Abako Oy and Microsoft Corporation process the personal data as service providers on behalf of the Safety Investigation Authority.

Retention periods of personal data

We will retain the contact details of the persons who provided the responses until one year has passed since the conclusion of the monitoring of the recommendation concerning the organisation. If a person wishes for their email address to be removed earlier for reasons such as changing workplaces, they can submit a justified request to turvallisuustutkinta@om.fi. The Safety Investigation Authority processes and responds to the requests.

Data protection officer

You can contact the Data Protection Officer of the Safety Investigation Authority at tietosuojavastaava.oev@oikeus.fi.
